Trained at Harvard University, Columbia University College of Physicians and Surgeons, and University of Pennsylvania, [Anne Blackwood-Chirchir, MD](#) is a hematologist, medical oncologist, and epidemiologist with more than 20 years of experience in the pharmaceutical industry from Associate Medical Director to Vice President levels. Anne provides consulting services in hematology and oncology clinical development, clinical pharmacology, clinical development strategy, and in the preparation, review, and defense of regulatory documents.

Anne's experience spans agents including cytotoxics, targeted small molecules, biologics, armed antibodies, and immuno-oncology agents, as well as mechanisms and conditions across the medical oncology and hematology spectrum. Her background in epidemiology provides special expertise in clinical trial and clinical pharmacology trial design, as well as in trial results interpretation, dose selection and justification, regulatory document preparation, review, and defense.
