
[Dr. Roger E. Morgan](#), **MD, FACS** has extensive experience in global medical affairs with both pharmaceutical companies and CROs. While trained as a surgeon/critical care intensivist, he spent much of his industry career focused on metabolic and cardiovascular research. Prior to MedSurgPI, Dr. Morgan served as the Executive Vice President Global Medical Affairs at Clinipace Worldwide, a contract research organization. Prior to that he was the Chief Medical Officer at Kowa Research Institute, where he worked on multiple cardiovascular, endocrine, ophthalmologic, and other therapeutic programs, and evaluated multiple preclinical molecules and potential in-licensing candidates in these areas. He also served as Director of Medical Affairs/Assistant Research Professor for the Department of Surgery at Duke University in the American College of Surgeons Oncology Group, and as the Senior Director of Medical/Scientific Services in the Internal Medicine Therapeutics Division at Quintiles. Dr. Morgan received his M.D. from the University of Illinois College of Medicine and his A.B. in Biochemistry from Duke University. He received General Surgery and Critical Care training at Michigan State University and University of Pittsburgh, respectively. He is certified by the American Board of Surgery for Surgical Critical Care and General Surgery, and is a Fellow of the American College of Surgeons.
